GAR Objective 2345

At Gardiner's this fall, CRV and other astute cattlemen found Content from over 400 bulls offered making him the second high selling bull of the sale.

Content is a true "bet the farm" calving ease bull. He stands in elite company with his +16 CED -Top 1% of the breed and -2.0 BW -Top 1% of the breed.

Content doesn't just give you calving ease. This bull has substance. He's big-topped, deep bodied and has great feet and legs. His sire New Design 5050 is a breed changer and we expect that from Content.

Content descends from very royal blood. His dam GAR Objective 2345 sold in a past Gardiner sale for \$300,000 ½ interest to Deer Valley in TN, making her total evaluation at \$600,000. Content has full and maternal brothers serving A.I. organizations and top purebred programs around the country.

This is a must use bull on those heifer projects for seed stock producers or commercial cattlemen.
