KAROO

Keta TLM 04 506

Breeder: Terry McLintock
- Halfway House
Owner: Andrew Jordaan and sons
- Spekboom Cradock

This eight year old bull was sold on Dr. Spies of Petrusville sale to Andrew Jordaan of Cradock. He adapted well under the Karoo conditions and therefore he got the nickname of Karoo. He was put to 65 cows in the first mating season of which 62 conceived. He has outstanding constitution and is the ideal bull to use for producing early maturing offspring with good temperament.

His sire MOGWOONI K6K2459 was the undisputed best bull line breeder in South Africa – no other bull left the quality that he bred. MOGWOONI K6K2459 and Sir Ivor laid the base of the Boran breed in South Africa.

Karoo is pure, line bred bull from Jackie Kennedy's Mogwooni herd. As Karoo has not been heavily used in the Boran stud industry he gives breeders an alternative to most K6K2459 sons.
